Form for Internal Distribution of Data from the German Family Panel pairfam

According to § 4 of the user contract, contractually authorized data users are allowed to internally distribute data from the pairfam study (incl. DemoDiff) to third persons if the data recipients are:

(a) persons who use the data within the research project specified in the user contract, or

(b) students who use the data for preparing theses required by their degree program.

Use of the data is permitted only for the purpose of scientific analyses. The precondition for any internal data distribution is the existence of a user contract with pairfam on the part of the distributing person.

The data recipient commits in writing to the disseminating person to comply with all regulations mentioned in the user contract (see reverse side). Please inform pairfam user support at the pairfam research data center about any internal distribution of the data by completing the following fields and sending the signed document via mail, fax, or e-mail to:

» Nina Schumann | LMU München | Institut für Soziologie | Konradstr. 6, 80801 München
» ☏ +49 89-2180 1296 🖷 +49 89-2180 2922 🖂 support@pairfam.de 💻 www.pairfam.de

1. Distributing Person (→ with valid pairfam user contract)

Name	
Institution	

2. Data Recipient

Name	
Institution	
Position	
E-mail address	

3. Purpose of Use

(a) Title of the project → see user contract	
(b) Topic of thesis	

With my signature, I accept the terms of use for working with data from the German Family Panel pairfam (incl. DemoDiff).

Place, Date

Signature of Data Recipient

Content of the User Contract with pairfam

§ 1 The Data Archive of GESIS – Leibniz-Institute for the Social Sciences, referred to as "Data Archive" hereafter, grants the applicant simple rights to use the requested data for the stated purpose. Changes to this application and contract are only accepted and valid in written form. Any other form of notification, including email or fax is not sufficient and will not be accepted as valid.

§ 2 The applicant agrees to refrain from and is prohibited from any and all action aimed at, or capable of, disclosure of any anonymized statistical information included in the data. Combining of the data to which rights have been granted with other data for the purpose of identifying the identities of respondents is strictly forbidden.

§ 3 It is only permitted to publish data in a summarized manner as is common for scientific papers and presentations. The presentation or publication of single cases is not allowed, even if no direct connection to any real person is made.

§ 4 The requested data may not be transferred to a third party outside the aforementioned research project. However, internal dissemination of the data is allowed to students who use the data for theses required by their degree program. In all cases the applicant is obliged to inform pairfam user support about any distribution of the data to other persons promptly and without the necessity of a further request by sending a copy of the completed and signed dissemination form: http://www.pairfam.de/en/data/data-access.html.

§ 5 The applicant agrees to cite and credit all material used in accordance with scientific practice. The current citation rules are provided on the website of the pairfam research data center: http://www.pairfam.de/en/data/citation.html.

§ 6 The applicant agrees that all of the aforementioned terms and conditions apply to all other data users who gained access to the data according to § 4 of this user contract.

§ 7 Neither the pairfam research data center as the data provider (persons, institutions, etc.) nor GESIS are in any way responsible for analyses or interpretations of the data provided by the Data Archive.

§ 8 Should any individual clauses of this application be deemed invalid or inapplicable, the remainder of this application agreement remains intact and legally unaffected.
