

Panel Analysis of Intimate Relationships and Family Dynamics

Call for Papers

International User Conference of the German Family Panel pairfam 2021

Conference date: 30 September & 1 October, 2021

Proposal submission deadline: 20 April, 2021

Conference venue: Virtual World, University of Bremen, Germany

The seventh international pairfam User Conference will be held in Bremen on September 30th and October 1st, 2021. We invite submissions from national and international researchers from all disciplines on any topic utilizing data from the German Family Panel pairfam. The conference will be held in English.

The goals of the pairfam User Conference are to provide both new and experienced researchers a forum in which to present preliminary results, receive comments and feedback from experienced pairfam data users and staff, and to facilitate future collaborations. Interested researchers are invited to submit an abstract for a paper or a poster presentation by email to pairfam-conference@uni-bremen.de. Abstracts should be no longer than one page in length and must include the title of the paper or poster and the names, email addresses, and institutional affiliations of all authors.

The submission deadline is 20 April, 2021. Each proposal will go through a review process, and acceptance notifications will be communicated by 15 May, 2021. Depending on the number of submissions, the reviewer team might assign some submissions to a poster session.

We are aware of the present challenging situation due to the Coronavirus. In principle, the User Conference will take place online. Depending on infection rates and governmental restrictions, we may switch to some kind of hybrid mode if possible.

There will be no conference fee, and potential travel costs cannot be reimbursed.

A preliminary program and further information on the conference will be provided in due time.

The best conference presentation will be selected by a jury and awarded with 400 €, sponsored by Kantar Public.
