INFOBOX

Attention! Population change: Do not use wave 8 data for general analyses of the parent population.

In wave 8, the focus of the parent survey changed from "parenthood" to "grandparenthood". The goal in doing so was to pique the interest of the respondents. This change led to a reduction in the questionnaire and to a considerable change in the population:

Instead of interviewing all (living) parents who are in contact with the anchor were eligible, the group was further specified to (living) parents who are in contact with the anchor who lives with at least one biological or adopted child in a shared household (see also the anchor questionnaire for wave 8: Consent to the grandparent survey). As the data from the parent survey in wave 8 only represents grandparents, analyses of the parent population should not include wave 8 data.

Introduction

Text 1

Dear Participant,

Thank you for participating in our survey!

Please read these instructions carefully before proceeding with your answers.

First of all, please remember that the questions regarding your child refer to the child who was named in the questionnaire. This may be your step-, your foster-, or your adoptive child.

Moreover, you are presented questions referring to a specific grandchild mentioned in the cover letter. This grandchild is a randomly selected child living with your son/daughter.

If you've ever participated in this survey, you will probably be familiar with some of the questions. Please answer all questions anyway. The answers allow us to detect changes in participants' attitudes, behaviors, and living conditions.

We are interested in your personal opinion and your experiences. There are no right or wrong answers to these questions - only your personal assessment and experiences are of importance to us. The numbers in small print next to the answer categories are for data processing only; they are not used for a normative evaluation of your answers. Please fill out the questionnaire by yourself.

Here are two examples:

(omitted)

Please proceed line for line, question for question. Do not skip any questions unless the text expressly instructs you to do so.

We hope you enjoy filling out the questionnaire!
